

Established sites for Telstra Equipment Building Access (TEBA)

While many of Telstra's equipment buildings have capacity for TEBA areas to be developed, only a limited number of equipment buildings currently have established TEBA areas. The list below is a guide to the equipment buildings that currently have established TEBA areas.

Please note that this list is subject to change without notice. If you need to obtain an accurate indication of TEBA availability at a specific equipment building, you should submit a TEBA Preliminary Study request in accordance with the Ordering and Provisioning procedures of your Facilities Access Agreement or Customer Relationship Agreement.

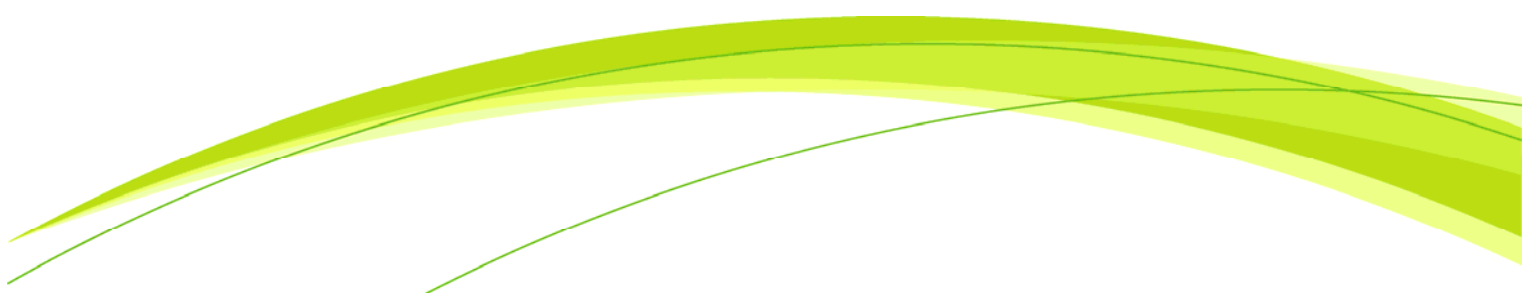

If you want to install equipment at a Telstra equipment building where there is no established TEBA area, a TEBA area can be created in accordance with contractual terms provided there is space available for a TEBA area to be established.

In addition to the sites listed in the table below, Telstra has received TEBA requests for the following sites that do not have, or no longer have, space available for TEBA (for connection to ULL/SSS services at these sites, customers can house their DSLAM external to the Telstra property, and apply for an External Interconnection Cable to connect to the exchange MDF):

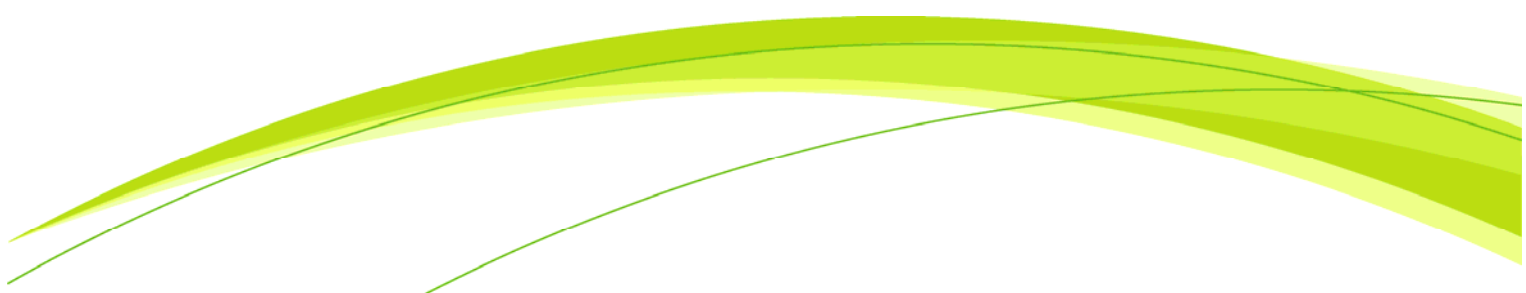

- Carlton (Vic);
- Epsom (Bendigo, Vic);
- Dandenong South (Vic);
- Airlie Beach (Qld);
- Ocean Reef (WA);
- Glen Forrest (WA); and
- Ashfield (NSW).

July 2005

Exchange Name	State	Site Category	MDF Code/s	Address
Albury	NSW	Built Up	ALBY	475 KIEWA ST, ALBURY 2640
Alice Springs	NT	Country	ALSS	4 PARSONS ST, ALICE SPRINGS 0870
